Agenda

- *EDFacts*
- Consolidated State Performance Report
- File Specifications
- Business Rules Single Inventory
- Common Data Quality Issues
- Transition/After-Exit Data
- Resources

ED*Facts*

neglected-delinquent.ed.gov

What is EDFacts?

A data warehouse which serves as a central repository for many education data collections

States submit raw data to *EDFacts*, which are then used for a variety of reports, tools, and data files by ED

About 80 percent of the CSPR is populated by *EDFacts* data

Purpose of ED*Facts*

- To place the use of robust, timely performance data at the core of decision and policymaking in education.
- To reduce state and district data burden and streamline data practices.
- To improve state data capabilities by providing resources and technical assistance.
- To provide data for planning, policy, and management at the federal, state, and local levels.

ED*Facts* Data Quality Approach

Attribute	Definition
Timeliness	Data are considered timely if submitted by the specified due (closing) date of the data collection.
Completeness	Data are considered complete if all of the required data are submitted, at each reporting level, for all education units, and all required category sets, subtotals, and totals. No data are missing and no placeholder data are submitted.
Accuracy	Data are considered accurate if they pass edits checks and data quality rules, contain no known errors, and are certified by the appropriate party.
Validity	Data are considered valid if they are reported in a consistent manner and measure what they were intended to measure.
Usability	Data are considered usable if the calculation/analyses are appropriate to the data and include explanations of anomalies.

ED*Facts* Data Quality Strategy

Consolidated State Performance Report (CSPR)

neglected-delinquent.ed.gov

What is the CSPR?

The required annual reporting tool for each State, the Bureau of Indian Education, District of Columbia, and Puerto Rico as authorized under Section 8303 of the Elementary and Secondary Education Act, as amended by the Every Student Succeeds Act of 2015

Data reported align with program requirements that States address through Consolidated State Plans

Process has evolved over time, but some version of the process in this format has been in place since SY 2003-04

Title I, Part D Data Included in the CSPR

CSPR Part II

Section 2.5

- 2.5.1 State Agency Title I, Part D Programs and Facilities – Subpart 1
 - 2.5.1.1 Programs and Facilities - Subpart 1
 - 2.5.1.2 Programs and Facilities That Reported - Subpart 1
 - 2.5.1.3 Students Served – Subpart 1
 - 2.5.1.4 Academic, Career and Technical Outcomes While in the State Agency Program/Facility or Within 90 Calendar Days after Exit
- 2.5.2 Academic Performance – Subpart 1
 - 2.5.2.1 Academic Performance in Reading – Subpart 1
 - 2.5.2.2 Academic Performance in Mathematics – Subpart 1
- 2.5.3 LEA Title I, Part D Programs and Facilities – Subpart 2
 - 2.5.3.1 Programs and Facilities – Subpart 2
 - 2.5.3.2 Programs and Facilities That Reported - Subpart 2
 - 2.5.3.3 Students Served – Subpart 2
 - 2.5.3.4 Academic, Career and Technical Outcomes While in the LEA Program/Facility or Within 90 Calendar Days After Exit
 - 2.5.3.5 Academic Performance – Subpart 2

CSPR Title I, Part D Frequently Asked Questions

- **How is average length of stay calculated for Sections 2.5.1.1 and 2.5.3.1?**

The average length of stay should be weighted by number of students and include the number of days, per visit, for each student enrolled during the reporting year, regardless of entry or exit date. Multiple visits for students who entered more than once during the reporting year can be included. The average length of stay in days should not exceed 365.

- **What is an unduplicated count?**

An unduplicated count is one that counts students only once, even if they were admitted to a facility or program multiple times within the reporting year.

- **For Section 2.5, what is long-term?**

Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2018 through June 30, 2019.

File Specifications

neglected-delinquent.ed.gov

What are File Specifications?

- Provides technical instructions for building files that are submitted through the *EDFacts* Submission System (ESS)
- Used in coordination with other documentation posted on the *EDFacts* Initiative Home Page under *EDFacts* System Documentation, including:
 - ***EDFacts* Workbook** – a reference guide to using the *EDFacts* Submission System (ESS); particularly useful to new users; contains multiple appendices, including one that explains how to use the file specifications
 - **ESS User Guide** – provides assistance to new users of the *EDFacts* Submission System (ESS); it addresses the basic mechanics of system access and data submission
 - ***EDFacts* Business Rules Guide** – describes each business rule including the error number, type, message, definition, edit logic, and the file specifications where the business rules are applied

Layout of Each File Specification

- 1.0 PURPOSE
- 2.0 GUIDANCE FOR SUBMITTING THIS FILE
 - **2.1 Changes from the Previous School Year File Specifications**
 - **2.2 Core Requirements for Submitting this File**
 - Contains tables with the reporting period, the education units included or excluded, the type of count, and zero count reporting.
 - **2.3 Required Categories and Totals**
 - Lists the combinations of the categories that are expected to be submitted for the state and each LEA or school that should be included in the file.
 - **2.4 Guidance**
 - Contains guidance for submitting a file in the format of questions and answers.
 - **2.5 Definitions**
- 3.0 FILE NAMING CONVENTION
- 4.0 FIXED OR DELIMITED FILES

Business Rules Single Inventory (BRSI)

neglected-delinquent.ed.gov

What is the Business Rules Single Inventory (BRSI)?

- A single inventory for State Education Agencies that contains data quality (DQ) business rules applied to EDFacts data throughout the lifecycle of that data.
- Includes previously published submission rules as well as post-submission DQ rules that have not been officially published prior to 2018.
- Increases transparency in post-submission DQ review processes and provide SEAs with the opportunity to check data prior to submission.
- Includes two documents:
 - (1) the EDFacts Business Rules Single Inventory User Guide, detailing the layout of the BRSI spreadsheet, FAQs and commonly used filters; and
 - (2) the EDFacts Business Rules Single Inventory Excel spreadsheet describing each business rule.

Locating Title I, Part D Business Rules

How can you find the data quality review edits that are applied to N or D data in the Business Rules Single Inventory (BRSI)?

- 1) System of Publication (Column G) = February ESEA Review
- 2) Scope (Column H) Neglected and Delinquent

Types of Title I, Part D Business Rules

- Programs reporting \neq Programs funded
- Mixed up data/programs
- Over 100% at Subpart and program level
- Major missing data (long-term (LT), unduplicated count (UC), math and reading results, all age data)
- All zeros for math and reading
- Academic performance results over LT or UC
- Demographics (Missing LEP/IDEA/race/gender, subtotals don't equal UC)
- No data for academic and/or career and technical outcomes
- **New!** Year-to-year comparisons
- **New!** 5-Year longitudinal checks

Data Quality Issues

neglected-delinquent.ed.gov

SY 2018-19 Common Data Quality Issues

Business Rule Type	Issue	Resolution
Completeness – Missing Data	Zero counts are submitted instead of missing counts.	Missing Counts: Submit if data was unable to be collected, but outcomes were obtained. Zero Counts: Submit if data was collected, but no outcomes were obtained.
Accuracy – Across File Comparison	The number of students served is less than the sum of students reported obtaining outcomes.	Manually calculate the sum of students obtaining outcomes or test results and ensure it is not greater than the unduplicated student counts and/or the number of long-term students served.
Accuracy – Year-to-Year Comparison	The unduplicated student count reported changed by $\pm 10\%$ or more from the prior school year.	Establish internal checks in your State to correct or address this issue early.

QTNA to Improve Data Quality

Data Schedule

- How often are data collected?
- Is there an established due date?
- Is the due date consistent over time?
- What is the due date?

Data Quality

- Do you have an established data quality process (e.g., SOPs, process flow, etc.)?
- Do you have it documented?
- Do you have a data quality rubric/list of data checks?
- Do you share the rubric or information contained in the rubric to subgrantees?
- Who conducts data quality (program staff/team, contractor, *ED Facts* coordinator)?
- Do you review for timeliness, completeness, and accuracy?

Data Use

- Are the data used for research/evaluation?
- Are the data used by other SEA offices?
- Are the data released publicly?
- If so, in what format? What is the general process for releasing the information?
- Do you know if the data are regularly used by external stakeholders?

Transition/After-Exit Data

Poll Question

Based on the current outcomes listed in the CSPR, which of the following are the most difficult to collect in your State?

- A. Enrollment in Local School District
- B. Earned GED or High School Diploma
- C. Earned High School Credits
- D. Enrolled in GED Program, Post-Secondary Education, or Job Training
- E. Obtained Employment

Collecting After-Exit Data

New! If there is a state law or policy that prohibits contact with a student after they leave a facility, does that exempt the State from submitting after exit data currently required by ED?

Regardless of laws or policies implemented by the State, State agencies and local educational agencies must submit evaluation results to the State educational agencies and ED. (ESEA section 1431(d)(1)). Evaluation results include the after-exit data currently being collected through the CSPR.

Strategies to Collecting After-Exit Data

- Ensure one person at each facility, institution, or program is responsible for staying in contact with students at least 90 days after exit
- Make data input easily accessible to staff in school district
- Develop surveys for students, families, and/or employers to complete
- Develop collaborative relationship with probation officers, social worker, and local community centers
- Share outcomes quarterly with State agencies and LEAs to improve data quality and decision making
